Permit No. **2021-0235-TVR (M-1)**
Permit Writer: Alex Johnson
Facility ID No.: 6417
Date: February 24, 2026

SUBJECT: Title V Operating Permit – Modification
PRY Data Storage Facility (SIC 7374)
Section 6, Township 20N, Range 19E; Mayes County, Oklahoma
Address: 4581 Webb Street, Pryor, OK 74361

Dear Mr. Rhymer:

The Air Quality Division (AQD) has received your application to modify the major source operating permit for the above-referenced facility. The facility is not a PSD major stationary source. This facility is an area source of HAP emissions. The application requests the following changes to the Title V operating permit:

1. Requesting approval to use hydrotreated vegetable oil (HVO) and/or a blend of HVO and diesel as an alternative fuel for the engines.
2. Add language to the permit to clarify that the engines with SCR are not required to continuously use SCR at all times. This modification was ultimately made in Permit No 2021-0235-C (M-2) and is not considered in this determination.

This facility is currently operating under Permit No. 2021-0235-TVR, issued on December 12, 2022, Permit No. 2021-0235-C (M-1), issued on March 12, 2024, and Permit No. 2021-0235-C (M-2), issued on January 6, 2026.

Due to the incorporation of Permit No. 2021-0235-C (M-2) into this modification, this application has been determined to be a **Tier II** and the documents have been received as below:

<u>Document</u>	<u>Date Received</u>
Application	April 11, 2025
Application Fee, \$3,000	April 9, 2025
Landowner Notification Affidavit	April 11, 2025

The information supplied thus far has been determined to be **administratively complete** and it is in the status of **technical review**. As a Tier II application, your permit will be required to undergo public and EPA review before issuance. Due to the construction permit incorporation being an agency reopening, public review will be handled as a web review.

Please note that additional information may be required in the future. Future correspondence should be addressed to the permit writer and must include the referenced permit number.

If you have any questions, please refer to the permit number above and contact the permit writer at alex.johnson@deq.ok.gov, or at (405) 702-4201.

Sincerely,

Richard Kienlen

Good Morning:

Attached is the issued Administrative Completeness Letter for the PRY Data Storage Facility modification (to authorize the use of HVO fuel for the engines). This permit has been determined to be Tier II, and is now in technical review.

NOTE: This letter is being re-issued as it was determined that this permit is Tier II, due to the incorporation of the construction permit modification. However, since the construction permit was done as an agency reopening, we are not charging any additional fees.

The attached document is an official communication from DEQ. You will not receive a hard copy. If you have any questions about this permit action, please contact Alex Johnson using the information in the signature below.

Permit No: 2021-0235-TVR M-1
Company: Myall LLC
Facility: PRY Data Storage Facility
ID: 6417

Sincerely,

Alex Johnson, E.I. VI
