

# Cleanup and Redevelopment

Photo courtesy of City of Oklahoma City

Since 1993, the Department of Environmental Quality has dedicated itself to working with federal and local governments, non-profits, and private entities to provide support for cleanup, sustainable reuse, and redevelopment.

## **BROWNFIELDS**

Provides outreach, environmental liability relief, and resources to assess and safely cleanup brownfields.

## **LAND RECLAMATION**

Works with communities to facilitate the use of suitable portions of the solid waste stream to reclaim and restore Oklahoma lands.

## **MERCURY**

Responds to household mercury spills and collects items containing mercury at community events.

## **SITE CLEANUP ASSISTANCE**

Program performs cleanups of contaminated buildings, hazardous waste sites, and school labs around the state.

## **SUPERFUND**

A federal program used to cleanup sites contaminated with hazardous substances and pollutants.

## **VOLUNTARY CLEANUP**

A program for companies to investigate and cleanup properties voluntarily.
